THE COMPANY KNOWN TO THE PUBLIC as the "Mississippi Valley Navigation Company of the South and West," is organized under a charter from the State of Louisiana. This Company propose to take these lands at a fair valuation and issue to the owners their stock in flew. If lands shall enhance in value, so will the stock enhance in value, so will the stock enhance in value, and thus the land proprietor carry in his pocket the equivalent of his lands, to be converted into maney or property without delay. The success of this great enterprise is beyond question. The stockholder, in saidition to the benefit of the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their earnings.

Persons wishing to exchange lands for the stock of the Company will send to the Agent at Memphis a description of them, their productive qualities, the timber, bottom or upland; whether exception; how near to
